

Help more happy customers with us.

UNITED CREDIT proudly partners with thousands of merchants across the country to present financing solutions across both retail businesses and specialty healthcare. With access to payment solutions that serve a wide range of consumers, we can help you capture more loan approvals -- which means more revenue for your business.

HERE'S HOW WE GROW YOUR BUSINESS.

No enrollment fees or monthly fees.

Businesses enrolled with United Credit can offer our program to customers without maintenance fees. You only pay fees when a loan is funded.

Fast funding.

Your business is paid quickly via direct deposit into your banking account with amounts available between \$500 to \$25,000.

Your first, second, AND final look option.

We partner with multiple lenders who service customers with prime, near-prime, and sub-prime credit. That means we provide more options for approvals across all credit profiles.

Support when you need it.

Our account managers, customer service, and online merchant tools are available to assist your business and your customers whenever you need help.

Easy-to-plan payments.

Our standard one-time installment loans feature monthly payments with terms between 24 to 60 months.

Smarter than a credit card.

Our programs offer fixed rates and predictable payment terms, which can reduce the stress of more credit card debt for your customers.

FLEXIBLE FINANCING OPTIONS FOR YOUR CUSTOMERS.

	TIER 1 PRIME	TIER 1 NEAR-PRIME	TIER 3 SUB-PRIME ²
Est. Consumer FICO Score	660+	575+	High 400's
Consumer Interest Rate ¹	starting at 7.99%	starting at 15%	starting at 19.9%
Merchant Fee ⁴	12.99%	12.99%	33%

¹ Final consumer interest rates based on credit score, credit history, and other applicant considerations.

² Tier 3 programs require a down payment of 10% or higher.
